25.4	1.0"	7.50 - 25.00

FC

\*These fill weight ranges are approximate and should be used as a guide. They are based on free-flowing powders having a uniform density in a controlled temperature and humid environment. \*Larger fill gun sizes for weight between 25 grams and 1,000 grams are available. Factory evaluation of the powder and the application is required. Guns available in sizes to 5-3/4" I.D.
