

Manual IV Bag Visual Inspection System (IVBIS-MA)

Improve your IV BAG manual inspection process with the enhanced inspection system from AWS Bio-Pharma Technologies

NEW

Patent pending

DESIGN FEATURES:

Designed, assembled, & supported in the USA!!

- ⇒ Designed to meet FDA standard manual inspection requirements based on USP 790 and USP 1790.
- ⇒ Provides equal or better inspection results compared to typical manual inspection (subject to your current SOPs).
- ⇒ Minimized eye strain due to enhanced lighting and optional magnified inspection.
- ⇒ Vertical inspection of IV bags allows easier manual inspection and reduces repetitive motions by inspectors

IVBIS-MA 4.27.23

Manual IV Bag Visual Inspection System (IVBIS-MA)

- ◆ Touchpad on user control panel
- ◆ Fully adjustable light levels
- ◆ Bluetooth remote control via windows PC or android cellphone
- ◆ The simplified app includes access to setup, performance monitoring, & recipe features
- ◆ Display panel options include operational, maintenance & trouble-shooting options

- * Ease of operation
- * Minimizes eye strain
- * System handles 50ml-1,000ml IV bags
- * Specialized LED lighting is controlled to below 3% variation.
- * Enhanced inspection capability
- * Portability
- * Complete IV bag inspections

Due to the above features, the opportunity exists to enhance inspector through-put while reducing eye strain, based on current SOPs.
